

Formglas

Shaping Possibilities

Feature Project ■ **ICON SHOES**

Industry: Retail Location: Toronto, Ontario, Canada Design: Romanov Romanov Architects Inc.

■ Pre-manufactured corners ensured clean and accurate details and reduced installation costs.

Concept

When Icon Shoes required a new brand image for their flagship outlet store that adhered to Yorkdale Shopping Centre’s design requirement of a stone effect on store facades, they turned to Formglas. The use of QuarryCast® panels and moldings provided an elegant and durable solution.

Specs

- QuarryCast® interior molded stone veneer panels featuring standard and custom molding profiles in Kyoto Coffee, a Formglas standard color.
- Installation was completed in a matter of days with this lightweight, noncombustible product. Panels and moldings were easily cut and fitted by carpentry installers.

Technical Specifications

Architectural Drawings

Architectural concept drawings were converted into manufacturing production drawings by Formglas' skilled and experienced engineering team.

Manufacturing production drawings provided clear instructions that supported timely installation.

Formglas Drawings

Final Product

Custom molded products by Formglas for interior and exterior design applications are specified by more designers and architects than any other products of their kind in the world. For more than four decades, Formglas has supplied the commercial building and design industry worldwide with the highest quality molded stone and concrete textured finishes, luxurious cold cast metallics and precision engineered cast gypsum surfaces. Our team of architecturally-trained product specialists work closely with designers and architects to create practical and cost-effective solutions that reduce installation cost, provide enhanced appearance and ensure years of durability and beauty. Best of all, Formglas products and services are backed by the industry standard for quality, service and on-time delivery.
