

# Formglas

Shaping Possibilities

## Feature Project ■ NIAGARA FALLSVIEW CASINO RESORT, SALON PRIVE

Industry: Gaming Location: Niagara Falls, Canada Design: Dougall Design Associates Inc.

■ Ornate details crafted by Formglas™ in-house sculpturing artisans compliment tight fitting vaults derived from patterns created on 5-axis CNC technology.

### Concept

When the Ontario Lottery and Gaming Corporation invested \$1 billion dollars to create a world class casino resort in Niagara Falls, Formglas was chosen as the sole supplier of glassfiber reinforced gypsum (GRG) products to help create a unique “Las Vegas of the North” feel.

### Specs

- Extensive use of lightweight QuarryCast® on the entrance facade including Corinthian columns, veneer panels, arches, moldings and door frame.
- Factory-painted GRG ceiling coffers contributed to a rapid and cost-effective field installation. All QuarryCast® and GRG products were fitted by carpentry / drywall installers using precise factory components.

## Technical Specifications

Interior Design Drawing

- Design intent was carried from the Interior Design drawings through the shop drawing approval process to the finished installation.

Formglas Drawing

Final Product

Custom molded products by Formglas for interior and exterior design applications are specified by more designers and architects than any other products of their kind in the world. For more than four decades, Formglas has supplied the commercial building and design industry worldwide with the highest quality molded stone and concrete textured finishes, luxurious cold cast metallics and precision engineered cast gypsum surfaces. Our team of architecturally-trained product specialists work closely with designers and architects to create practical and cost-effective solutions that reduce installation cost, provide enhanced appearance and ensure years of durability and beauty. Best of all, Formglas products and services are backed by the industry standard for quality, service and on-time delivery.
